Leading Carton and LITHO Printer in Los Angeles Invests In MarquipWardUnited TSKM Sheeter

Dual Rotary Knife Technology Ensures Industry-Best Speeds, Accuracy, Quality

PHILLIPS, Wis. — March 3, 2011 — Ultimate Paper Box, a leading carton and LITHO printer in City of Industry, Calif., has invested in a 1450 TSKM sheeter from MarquipWardUnited. The 57-inch maximum width dual rotary sheeter (which is also available in 65-inch) is equipped with the D2 splicer and nonstop pallet change feature, which allows continuous operation during both roll changes and pallet changes. The D2 splicer also allows lighter substrates to be sheeted two webs up, with each web having its own dedicated tension control and progressive decurler systems.

“As our business has grown, our goal is to lower operating costs and reduce lead times on custom-sized sheets. That search for the best sheeting equipment around led us to MarquipWardUnited,” explained Ultimate Paper Box owner Janak Patel. A similar 1450 TSKM has been operating at another packaging plant in nearby Corona, Calif., which specializes in pharmaceutical packaging. Patel added that he was “very impressed by the performance of the TSKM in a highly productive operation specializing in short runs. The sheeter at Corona produces little waste and very high quality sheets.”

Ultimate Paper Box installed its 1450 TSKM sheeter in December 2010.

For more information about the complete line of sheeting systems from MarquipWardUnited, please visit www.marquipwardunited.com or contact Lucas Kok at +1 (312) 513-2388, lucas.kok@marquipwardunited.com.

ABOUT BARRY-WEHMILLER

Barry-Wehmiller Companies, Inc. is a diversified global supplier of engineering consulting and manufacturing technology solutions in packaging, corrugating, and paper converting across a broad spectrum of industries. Barry-Wehmiller’s balanced approach to the market is made possible through nine interactive divisions: **Accraply, Inc.**, a leading manufacturer of automatic labeling and label
